Professional Summary

Senior Software Engineer with 6 years of experience specializing in backend architectures, microservices, and web application development. Proven track record of designing scalable RESTful APIs and optimizing database performance.

Technical Skills

Python, Django, Flask, FastAPI, PostgreSQL, Redis, AWS, Docker, Git, REST APIs, Microservices, Unit Testing, System Design, Data Structures, Algorithms

Professional Experience

Senior Software Engineer at TechCorp Systems (2022 - Present)

Led a team of 4 engineers to rebuild the core backend platform using Python, Django, and PostgreSQL, improving API latency by 35%. Implemented caching layers with Redis and deployed containerized services using Docker on AWS.

Software Engineer at SoftSolutions Inc. (2020 - 2022)

Developed and maintained backend services using Flask and PostgreSQL. Designed microservices and integrated external payment gateways. Wrote unit tests (PyTest) achieving 90% code coverage.

Education

Bachelor of Science in Computer Science - University of California, Berkeley (2019)
