Email: sam.altman@email.com | Phone: +1 (555) 099-8877 | Location: San Francisco, CA

Professional Summary

Innovative Generative AI Engineer with 4 years of experience designing and deploying large language model (LLM) architectures. Expert in Retrieval-Augmented Generation (RAG), prompt engineering, agentic workflows, and fine-tuning open-source LLMs.

Technical Skills

Python, LangChain, LlamaIndex, LangGraph, LLM, GPT-4, Claude, Prompt Engineering, RAG, Vector Databases, Pinecone, Chroma, OpenAI, Fine-tuning, RLHF, Generative AI, GenAI, Agentic Workflows, FastAPI, PyTorch, Git, Docker, MLOps, Semantic Search

Professional Experience

Generative AI Engineer at Advanced AI Labs (2023 - Present)

Designed and implemented agentic multi-agent workflows using LangGraph and LangChain. Built high-fidelity RAG pipelines using LlamaIndex and Pinecone vector databases, increasing accuracy by 40%. Fine-tuned open-source Llama-3 models using PyTorch.

Machine Learning Engineer at FutureTech Systems (2022 - 2023)

Developed semantic search APIs using FastAPI, PyTorch, and Docker. Automated ML pipelines (MLOps) and configured cloud deployment. Conducted research on RLHF and model evaluation techniques.

Education

Bachelor of Science in Computer Science - Stanford University (2022)
